## **NOTICE OF UPCOMING CONSTRUCTION**

Dear Residents,

Colorado Civil Infrastructure would like to inform you that **construction activities in your area are scheduled to begin July 7<sup>th</sup>, 2025**. These activities are part of the **PINEWOOD SPRINGS WATER IMPROVEMENTS** project designed to enhance public utilities and within your community.

During construction, **road closures and restricted access to certain areas** will be necessary to ensure the safety of both the public and our crew. We understand that this may cause temporary inconvenience, and we are committed to minimizing disruption as much as possible.

You can expect a waterline shut off for transition to a temporary water line and another shut off to connect the newly installed line to the existing infrastructure.

We are working with the Fire Department and Sheriffs office to make sure there are methods of reaching everyone in the case of an emergency.

We will begin work on Button Rock Rd. and will be working until early/mid August. Then, the Wichita Rd. section will go through the rest of August. Following that, we will move to Cree Ct. where we will work from roughly the 1<sup>st</sup> to the 15<sup>th</sup> of September. The Last region will be Kiowa Rd. just past the bridge that will finish at the end of September/beginning of October.

Thank you for your patience and cooperation. We look forward to working with the community throughout this project.

Sincerely,  
**Damian Chaidez**
