Water District – pinewoodspringswater.org

Backflow preventors do just what they say they do. They keep water in your house from flowing back into the water system. Not every house needs one. Only certain conditions require that you install one. By asking everyone to fill out a questionnaire, we are trying to identify possible issues and keep your water system safe from contaminants and avoid cross connections. Please help us stay compliant. If you haven't already filled out the questionnaire, do so now.

Next Board meeting is on **May 24th, at 7:00 pm**. To be included on the next agenda or to receive a Zoom invite, please call, 303-823-5345, or email Gabi at pswdadmin@att.net
