Water District - pswd.com

The Water District received its regular State Sanitary Survey inspection recently. During the inspection, the district was found to be lacking in records for our backflow prevention inspections. Therefore, you are receiving this notice letter for a *record-keeping* violation.

Please Note: The District has not had a backflow contamination occur. There are health advisories included with the letter for actual contamination events and when you should boil water. The district is monitoring for any form of contamination and no signs are present. All backflow prevention devices are functioning properly.

The district has two commercial locations and one industrial site. Cherry Co and Villa Tatra are commercial sites, and the water filtration plant is an industrial site. The Three sites all need to have backflow prevention and annual inspections performed. With the limited amount of contamination risk from these sites, past inspectors and district employees may not have been informed of changes in regulations. While we have not experienced a contamination event, the district is inspecting all locations and devices with third-party verification.

Pinewood Springs Property Owners Association-

Mark your calendar: **Pet Loss presentation** at 7 p.m. on **July 21** at the Tubs Park. Losing a beloved pet can be tough. Dr. Jessica Pierce, author of *The Last Walk: Reflections on Our Pets at the Ends of Their Lives*, like many of us, has been through it and understands how painful and confusing it can be. She will discuss some of the practical, medical, and moral issues that trouble pet owners confronted with the decline and death of their companion animals. Audience participation and questions are welcome.

A big thank you to the volunteers that helped at the Tubs Park on Clean-Up Day. Also, the Little Library doors have been repaired. Thank you, Michael and Cindy Mor. Kerry Grimes procured a new nameplate, plus we have 4 volunteer Librarians. Thank you, all!

Next Board meeting is **Wednesday, July 20th at 7:00 p.m.** via Zoom.
