Water District - pswd.com-303.823.5345

The recent Ice Age type cold snap took a toll on the water district infrastructure. Many residents also suffered frozen pipes and meters. The below zero temperatures with no snow cover caused many water lines to freeze when they have never frozen before. There are at least a couple of cold months left. Stay prepared by filling water jugs and having a supply of bottled water on hand. Water service could be turned off at any time due to a new leak.

Please report all water emergencies anytime to 303-823-5345.

Next Water Board meeting will be held on **March 24th, at 7:00 p.m.** Because of COVID-19 issues, this meeting will be held virtually. To be included on the next agenda, call, 303-823-5345, or email Gabi (pswdadmin@att.net)
